Persons contemplating marriage, doubts as to their physical ability to enter into that solemn contract, should apply at once to Dr. Gates, who will remove all obstacles to prevent a long and happy dilter of State to transact business in Kentucky, under the new Insurance Law of the State.

In presenting these Companies to the attention of the community, we do so with every assurance and guarantee of their andoubted solvency and promptitude in the settlement of losses, and as being worthy of entire considence in every respect.

Persons contemplating marriage, doubts as to their physical ability to enter into that solemn contract, should apply at once to Dr. Gates, who will remove all obstacles to prevent a long and happy diltered are persons who indulge the fond yet irrational belief that nature is capable of resuming without assistance her lost powers. To such I can only say, that the time which is wasted in this delay is precious and irretievable, and can only tend to perpetuate the high its of hopeless imbedility and render impotency per active properties.

One of the most delightful places in the city, to loiter an afternon, is the Egyptian Museum. To the virtuoso and antiquary, it must prove of special interest, while I can testify it is a rich treat to one who isn't a bit of a sovan. The collection is extensive, comprising almost two thousand specimens of antiquities, from the huge mummied Apis, to the charms, talismans, necklaces, and quaint biyoux worn by the Egyptian women. There is a magnificent nummy of a female, with a head-dress of lotus flowers. After all she was once a woman, and once a woman, and

TRAGEDY IN MICHIGAN .- Of all the tragedies of Traggor in Michigan.—Of all the tragence of which we have recently read, the most singular and terrible occurred in Michigan, a few days ago. The Grand Rapids (Mich.) Eagle, of March 15, contains the particulars. A Mr. White, who resides near the Rapids, was visited by two men to go with them to secure it. As soon as they were in the woods they killed the young man, Dopp laid down upon the floor, placed a pistol to his head and blew his brains out. Merritt wrote upon a piece of paper the words, "Farewell to this world—you will find us here," and left it upon the shelf—took a dose of strychnine and died.—The whole affair is unaccountable. Young White, who was murdered, was of good character. Merritt and Dopp were reputed to be of a gang of horse thieves and counterfeiters.

From information obtained by the detectives, ar-rests were made on Friday of Robert A. Fitzsim-mons, Capt. Charles Haywood, Thomas Pende-grast and Richard Walker, on the charge of dealing in counterfeit money. During Friday night other parties were probably arrested as implicate with those named, in an extensive and ingenious scheme for flooding this region with counterfeit tens and fives on the Chippewa Bank of Wiscon-sin. A new issue of the base tens was detected on sin. Democratic Meetings. The Democracy will hold meetings at Schwind's this large responsibility, and will, doubtless, distinguish himself in a department which, since the time of Judge McLean—who went out of it Exchauge, on Jefferson, between Clay and Hancock streets, Tuesday (to-d_y) evening; at Kircher's Tavern, at the cut off on the plank road, Wednesday evening; and at John Smith's, on with increased popularity—has been a millstone around every man's neck who ever held it. The Opposition Platform-No. VIII. We have been for some time looking at the hybrid Know-Nothing-American-Opposition concern erected in this city by the Sam Nicholasites on the 22d of February, as a platform, but which will prove to be a scaffold for the execution of a goodly number of the bad elite of Kentucky. We now come to the consideration of the seventh and last plank in the monstrous fabrication, which is

7. It is an Extravagant, Wasteful Party. The conclusive proof of this lies in the fact that under its rule the annual expenditures have in-creased from less than twenty to more than eighty

The single item of five millions spent in two Congressional terms for public printing, and the waste of six hundred thousand dollars annually in collecting the revenue, as stated in the report of even a Democratic committee, supersede the necessity of any detailed exposure of extrava-In the published letter of President Buchanan,

before referred to, he complained that in 1852 the annual expenditures "have reached the enormous sum of fifty million," and predicts that, "unless arrested by the strong arm of the Democracy, may in the course of a few years reach a hundred million." "I am convinced our expenditures ought to be considerably reduced below the present standard not only without detriment, but with standard, not only without detriment, but with advantage to the government and the people."
The "strong arm of the Democracy" has had control of the huances for the last six years, and instead of arresting waste and extravagance, they have been nearly doubled in amount. Such is the contrast between Democratic performance and its promise while seeking popular favor. Thus Mr. Buchanan, the most competent and reliable wit-ness in such a case, proves the wasteful extrava-

above of the honset Democracy.

The wasteful donation of public lands enabled the directors of a single railroad to use a million of dollars in bribing the passage of the scheme through Congress and the Wisconsin Legislature, as fully proved before a legislative committee. This is one instance out of many that might be his is one instance out of many that might be adduced to prove how the national treasure and domain are squandered, as Mr. Buchanan says, "to enrich contractors, speculators and agents." We have heard of the kettle calling the pot

black, but for these Know Nothings, disguised as Oppositionists, to charge the Democracy with being an extravagant and wasteful party, beats anything of the kind ever known. The monster Galphinisms which reared their hydra heads under Fillmore are yet gloating upon the National Treasury, but the Democracy are fast killing off the miscreants. While the present Administration is doing everything in its power to curtail expenses, and to thwart the thieving schemes of Black Republicans and Know Nothings, it is to be expected of the odds and ends of all parties to get mad because they can't plunder as much as they want, and to cry out economy as lustily as a thief trying to fix the attention of his pursuers upon an innocent passer by. The people all understand this thing. They are not to be deceived by the designs of such political empyrics. These Know Nothings are known to be the most wasteful and extravagant knaves living. They hope to get into power by accusing the Democracy of extravagance and waste, but all know what such fellows would do should they themselves unfortunately get control of the National Treasury.

It would be difficult to imagine how much waste and extravagance the elite, who have been used to high salaries, fine clothes, and fast living, might be guilty of if they could once secure the reins of the Federal Government. The hungry old hunkers have never had the mastery of anything greater than a third class city, but from what they have done where they had power, we may form some estimate of how waste and extravagance would keep pace with the increase of their might. Let us enumerate a few examples of their use of the public money in the small city of Louisville:

1. Since they have been in power in this city they have collected from the people and spent over \$3,000,000. Previous to their advent but little more than half this sum was needed in the same length of time.

2. When they came into power the city tax was less than \$200,000, and the total revenue, including heavy railroad taxation, was under \$600,000. Now they have raised the city tax to nearly \$700,000, and the total revenue to more than \$350,000 per year.

8. During the five years that they have so illy governed the city, they have spent more than the following sums for the following purposes: \$12,000 for printing what was comparatively worthless \$38,000 for a workhouse that ought to have yielded a revenue; \$60,000 for gas, much of which was consumed in lighting up the engine houses for their political meetings; \$50,000 for the salaries of city officers, some of whom were paid higher and higher as they attended to their duty less and less; and worse than all, \$130,000 for day and night watchmen, who drew this enormous sum from the city treasury, as much for efficiency in knocking down Irish, scaring Dutch, and playing the devil generally upon election days, as for any

thing else. 4. They have run up the cost of keeping half s dozen market houses to \$9,685 78 per year. This is more than it cost the city in times past to keep and repair the old market houses, and to build new ones. Last year the receipts from all the market houses in the city amounted to only \$9,-689 20, while it cost the city the enormous and inexplicable sum of \$9,685 78 to keep them. In other words, the net revenue from the markets, during the last fiscal year reported, was the won. derful sum of \$58 42, and no new building erected, and no old one repaired in a manner to suggest such a state of things. This is economy, perhaps,

but it is Know Nothing economy. But it is needless to go on in the enumeration of examples of Know Nothing waste and extravagance in this city. We might write upon the subject and adduce such examples as the above as long as they have been in power, and then have an unexhausted theme. We repeat that such men as these are not the proper ones to charge the Democracy with extravagance and waste. For the economists of the nation to turn the Democacy out of power, to put these croakers in, would be like jumping out of the frying-pan into the fire. They are thing but growling old hunkers who are only cause they are not in a position to plunder the nation as they do the smaller corporations

After withdrawing from practice he travelled in Europe several years, and then settled in Kentucky, among his own kindred and connections by marriage, both of the families being among the oldest and most distinguished stock of the State.

He was invited by Mr. Buchanan to take the Commissionership of Patents, and reluctantly yielded to the solicitations of friends, who knew his value and rare abilities. BY TELEGRAPH.

The Railroad Accident. March 21 .- The accident which occur red to the Eastern express train on Friday night proves more serious than was at first reported. Heavy rains had washed the embankment, making a chasm one hundred and fifty feet wide, and fifty feet deep into which the feet deep, into which the whole train, except the rear car, consisting of engine, baggage car, one second and two first-class cars, were plunged, smashing them to atoms. Four persons were instantly killed, and several others have since died of their ninvision. f their injuries.

On account of a derangement of the telegraph wires between here and Hamilton, a full list of the wires between here and Hamilton, a full list of the killed and wounded cannot be obtained. The following are the names of the killed and wounded as far as known, viz: George Morgan, engineer, Hamilton, C. W.; Alex. Braid, Hamilton; Wm. Milne, brakeman; Jones Bozer, a German, of O., and Hans Jacenson, Davenport, Iowa, were instantly killed.

stantly killed.

Wounded—Wm. W. Smith, Kalamazoo, Mich., head bruised, not seriously; Henry Post, Buffalo, leg broken; Fitch B. Adams, Buffalo, leg and hip crushed; Mrs. Fitch and children, slightly bruised; E. D. Bryant, Pontiac, ribs broken; Thomas Sackett, Avon, N. Y., slightly bruised; Adam Wilson, Hamilton, C. W., wounded in the neck and head; J. P. Smith, Brighton, N. Y., ribs badly broken—recovery doubtful; Hiram Cook, Cleveland, severe internal injury—recovery doubtful; Mrs. Boyer, upper jaw broken, and face badly cut; her son had a leg broken; Columbus Disser, Detroit, and John Anderson, brakeman, slightly injured.

From New York. New York, March 21.—The Herald's Washington correspondent says that the question of an extra session of Congress is at last decided. The President has authorized a telegraphic dispatch to be sent to Senator Gwin, who sails for Califor-nia to-morrow, that there will be no extra session. An authoritative statement is being prepared which will probably be made public to morrow or Wednesday, showing the condition of affairs and the manner in which the Post Office Department for the present is to be conducted. ore stated the Department will not issu certificates or adopt any means not strictly within the letter of the law. That it intends to cut down the service is highly probable and do away with many unnecessary expenditures; in fact there will be a general reform of the whole service, which in the opinion of the President and Postmaster

Holt was much needed. Railroad Accident. ALBANY, N. Y., March 21.— The accident on the Great Western Railroad happened between Hamborough and Dundas. The storm had washed away the bank, and the engine ran into a chasm

nearly twenty feet deep, carrying with it the baggage and two passenger cars. The scene was a most horrible one. A terrible storm was raging at the time, and a torrent of water was rushing through the chasm. There was the utmost difficulty in rescuing the dead and succoring the wounded. The cars were completely wrecked, and the engine buried itself in the soil.

The night express train passed over the spot in safety half an hour previously.

Besides the four killed, whose names are given in the Detroit dispatch, there are two others whose names are not reported, and also others wounded

whose names are not ascertained. Fight with the Indians. St. Louis, March 21.—A dispatch from Leaven-worth to the Democrat says that a severe fight occurred near Fort Arbuckle between 50 troops and 50 Wachita Indians, under Lieut. Powell, an a large party of Camanches, in which two Camanches were killed and two soldiers wounded. Another fight had occurred between 50 troop under Lieut. Stanley and the Camanches, in which eight of the latter and one of the former were

Capt. Carr with 50 men had left Fort Wachita for the seat of war. It is stated that the Camanches number upwards of \$000. Death of Senator Smith Indianapolis, March 21.—Hon. O. H. Smith, an old resident and Ex-United States Senator, died in this city on Saturday night. River and Weather.

CINCINNATI, March 21, M.—Weather mild and generally clear. River risen 5 feet 9 inches in the last 43 hours. White frost on Saturday night. It is thought the fruit is still safe so far. PITTSBURGH, March 21, M .- Biver 13 feet 6 inches by pier mark and falling. Weather cloudy, with appearances of rain. No arrivals or departures. St. Louis, March 21, M.—River about stationary, but as the Upper Mississippi is swelling rapidly another rise may be expected here very soon. Nothing new from the Illinois or Missouri.—Rained all the morning and there are prospects of its continuing all dams and there are prospects of its continuing all day.

THE VESPER GAS AIR LIGHT.

The Cheapest, most Brilliant, and most Convenied Artificial Light in the World. Artificial Light in the World.

THE Vesper Gas Light has won for itself a reputation for legance, economy, safety and simplicity, far beyond any other artificial light. The Vesper Gas flame and fixtures precisely resemble in form those of coal gas but in brilliancy and purity of light, it possesses a decided advantage over even Louisville coal grs. It requires no chimney; there is no need of daily trimning of wick; and the construction of the fixtures is so simple that it is not liable to get out of order, and a child can manage it readily. The gas burnt in the Vesper fixtures is generated from pure coal oil, without any admixture of alcohol or other foreign ingredient. It is entirely free from odor while burning, as, by a simple contrivance, the vapor of the oil is mixed with the atmosphere, producing perfect combustion and a most intense light. producing perfect combustion and a most intense light The light has been pronounced, by those who have had it in constant use for months, as most pleasant to the it in constant use for months, as most pleasant to the yew while reading or sewing, the rebeing no filekering or unsteadiness in the fiame. The Vesper Gas light is portable, and can be used in town or country—in fact, wherever artificial light is required. The fixtures themselve are adapted in styles to suit all tastes, from the plat single light burner to the most costly chandeller. Each chandeller is perfect in itself; there is no outlay to be made for service pipes. The gas is generated in thurner, and all fixtures, from the cheap single lighburner to the expensive chandeller, are miniature growth in themselves. They are sold at prices which do not exceed the cost of ordinary gas fixtures of simile styles and ornamentation. A price list will be sent any address on application.

MERCHANTS

MERCHANTS visiting Louisville should not fail to procure the Vesper Gas fixtures for their stores.

CHURCHES, HOTELS, PUBLIC HALLS AND

PRIVATE RESIDENCES
throughout the State can now be fitted up with those elegant and convenient chandeliers, and other beautiful gas fixtures, which add so much to the appearance of such places, and to the comfort of the home circle, and which, heretofore, could be used only in those favored districts embraced within the coal gas limits of large cities. The limited space of an advertisement precludes the nsertion here of the numerous testimonials of approva re have received from all quarters. Suffice it to say clentific men and others who have examined and thor-

mown.

The proprietor respectfully requests responsible merchants in every town and county in the State to correspond with him, believing they will find it to their interest to aid him in introducing this unequaled light to their contents. Vesper fixtures and Coal Oil, prepared expressly for this bu ner, kept constantly on hand, and for sale whole-sale and retail.

LYON'S MAGNETIC POWDERS,

Will destroy Garden Insects, Cockroaches, BedBugs, Fleas Anis Moths, and all pests
of the vermin kind.

The importance of a reliable article of this kind is inestimable. In warm weather all nature teems with these
annoying foes. This powder is the only article ever discovered which will exterminate them. A company of
botanists, from the Horticultural Society of Paris, while
amidst the ferns of Asia, observed that all insects lighting upon a certain kind of plant very soon dropped dead.
This fact was made use of to guard their night camps
from these intruders. Quantities of the plant were
brought home by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of agand climate. Medals and Letters Patent have been obtained from the Governments of England, France, Germany, and Russis, from the World's Fair, and numer-

immense value."

Every gardener and house-keeper must have a direct
interest in an article of this kind. Reference can be

THE RIVER was rising fast yesterday, with 13 feet water in the canal in the evening, by the mark. On the falls there were 10 feet water for descending boats, and \$\frac{1}{2}\$ feet water up the middle chute, a rise of 2 feet during the previous 24 hours, and a remarkable rise since Friday last, when the river was falling with no thought or

hours, and a remarkable rise since Friday last, when the river was falling with no thought or expectation that the falls would be navigable the next day. The weather yesterday was clear and pleasant during the day but cloudy in the evening with a hard shower of rain.

At Cincinnati the river had risen 5 feet since Saturday; and at Pittsburgh the river had attained a height of 17 feet. This will keep the falls at a navigable stage for a week to come.

The upper Mississippi and tributaries are rising rapidly, which together with the high water already prevailing will flood the lower country.

Gazette. That paper also reports the sale of two boats:

The Marine Association made a bit of a break yesterday. A difficulty arose about the St. Louis Line. The railroad was shipping on Association boats, and a good many of the home manufacturers are outsiders. The result was a division of the goods, and the boats were detained, hindering a proper dispatch of business. The difficulty came to a head yesterday, and the Association broke down as to these boats. The money deposited was refunded to several owners on call. The arrangement still holds, we believe, as to Cincinnati and other boats. The Belmont was sold on Thursday by Captain Calhoun to Mr. Trimble, of Georgetown, late cierk of the J. C. Fremont, for about \$\$5,000. The exact amount we did not learn. lid not learn. Capt. W. H. Blake has purchased the commo

From the officers of the Victoria we learn that three small crevasses have occurred a short distance above Grand Lake. A break has also occurred in the levee on the side of the Arkansas, in Arkansas county, and about forty miles above the mouth, which is causing great destruction among the planters. On White River, about four miles above Augusta, the levee gave way for some distance on Sunday last, and the water is pouring through at a terrible rate and threatens a vest amount of damage. The waters of old White are unusually high for the season, and the residents along its banks in many places are apprehending a disastrous overflow.

We learn that on Mnday last, at Lake Providence, the water was within two inches of the extreme high-water mark of last year.

It is the first detailed exhibit of the condition of any home company that we have ever seen, and compares most favorably with the statements of the best Eastern companies. Such an array of assets, amounting in all to \$352,556 24, skows most conclustively that we have a company in our own State, as sound and as well managed as any other, no matter where located. As it regards its promptness and liberality in the settlement of its losses, no company has a better reputation. The Peoria Company is doing business in most of the Western and Southern States, including Wisconsin, Michigan, Indiana, Missouri and Kentucky, where it is obliged to file an annual statement of its condition and to comply with the same laws that are required of all Eastern companies. The fact that the company can comply with the laws of those States, which are regarded as very onerous by many companies, shows that it has the necessary capital, and as available assets as any other company, being subjected to the same provisions.

The Officers and Directors of this company are men of

had insurance in the Peoria Company for several years.
